## Happy Valentine's Day

The beginning of the year is painted with many colors February being **RED** the color of **LOVE**. A rose can be adored by a lover or sweetly given from a child to a mother. It can be a swift swipe of the box chocolate of choice gifting your neighbour with a lasting smile. However small or big you choose to celebrate the art of love. Today, give a small piece of you. It just might be the piece that holds someone together. Your worth isn't in how much you get but all that you give away is what you're left with :)
